Lab 01

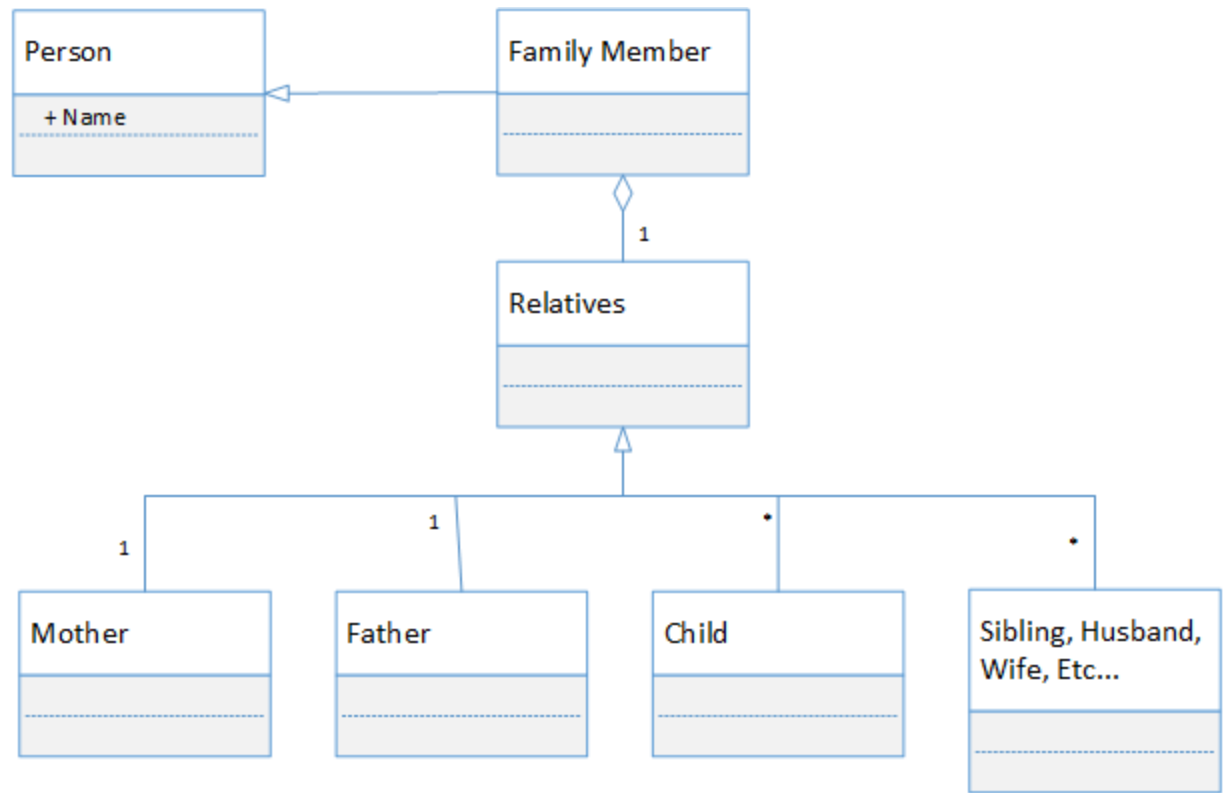

1) Design the Class and ER Diagrams using Visio for the InClass Exercise (Jan. 21) (check the attached file)

ER Diagram:

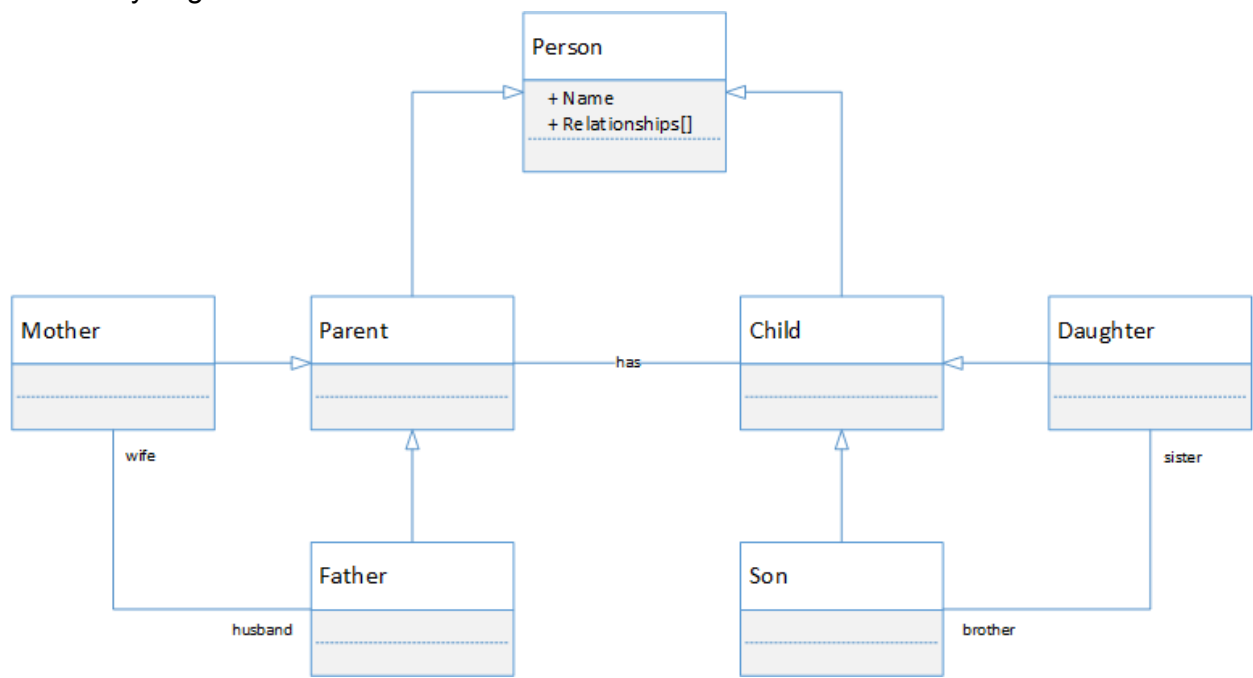

Class Diagram:

This is the best way I've found to solve this problem in diagraming. Source:
<http://www.eng.umd.edu/~austin/ence200.d/homework06b-5/family-member1.gif>

Here is my original version:

2) Create a GitHub account and post GitHub ID to the Lab 1 site

Search or type a command
